

**We Start
LISBON**

Reitoria Universidade
Nova Lisboa

21st
OCTOBER
2016

THE EUROPEAN CONFERENCE
FOR STUDENTS AND YOUNG
DIGITAL ENTREPRENEURS

AGENDA

Co-Organised by
MY-WAY and DigiStart

How MY-WAY and DIGISTART can help students?

Boosting entrepreneurship among students is the focus of the two projects. By offering various services, we aim to equip the students with the necessary tools and information that will assist them during their entrepreneurial journey.

MY-WAY has designed a Map of European Web Entrepreneurship that collects the most relevant actors for a young person wishing to launch a new business. The map can be accessed here:
www.mywaystartup.eu/mapping/

MY-WAY has developed a report that examines a unique set of best practice case studies of student support centres and individual initiatives in order to identify best practices among student support centres in web entrepreneurship ecosystems across Europe.

MY-WAY has developed action plans and will pilot them in Budapest, Zaragoza, London and Istanbul. During the piloting period, MY-WAY will receive valuable feedback from the student organizations and the students.

DIGISTART has an Open application program where students can apply with their idea and if selected participate in a pre accelerator program. DIGISTART developed a Talent forum which enables startups to find adequate profiles

DIGISTART is providing a Massive Open Online Course (MOOC) to train young entrepreneurs to develop their digital startups more effectively. DIGISTART has a Student support center that provides guidance and support to students in their startup journey.

Students and student organizations, interested in cooperation can contact us at:
